

Average Stats for College Volleyball Divisions

*Note that these stats are averages, meaning you'll find players at each of these levels who are both above and below what you see listed here. This sheet should be used as a guide to help you decide where to target your search, and a tool to help you see the goals you will want to reach if you would like to play at a certain level.

Note also that yes, height and jump touch matter at any level, but skill, competitiveness, and work ethic matter more. If you're 5'2" and have an 11" vertical, but you can pass any serve to target, read the game, and be an emotional leader, coaches at every level will want you.

	High DI (Top 150)	Mid/Lower DI	High DII (Top half in Region)	Mid/Lower DII	High DIII (Top third in Region)	Mid/Lower DIII	High NAIA (Top third)	Mid/Lower NAIA
